BRIDGES OUT OF POVERTY WORKSHOP

STRATEGIES FOR PROFESSIONALS AND COMMUNITIES

WHEN: Monday, June 24, 2019, 9am-12pm

WHERE: Norristown State Hospital
Building 33 Multipurpose room
[Campus map](#) & [Map to building](#)

INTENDED AUDIENCE:

Emergency Managers, VOAD & Community Partners

5.1 million people across the Commonwealth live below or just above the poverty line. As a result, a significant number of households may be more vulnerable during emergencies and disasters due to limited resources.

People in poverty are often in survival mode on a daily basis during blue sky days, and support systems taken for granted in by middle class and wealthy individuals are largely nonexistent. “Hidden rules” govern many aspects of life for the poor. A deeper understanding of their challenges – and strengths – helps your agency, organization, or business partner with people living in poverty to create opportunities for success and to make communities more resilient to disaster.

Bridges Out of Poverty is a uniquely powerful tool designed for social, health, and legal services professionals whose work connects them with people in poverty. This workshop will cover case studies, helpful exercises, and specific solutions you and your organization can implement right now to:

- **Evaluate programs** to better serve the whole community
- **Build skill sets** for management to help guide employees
- **Recognize the need for training** for front-line staff like first responders, receptionists, and managers
- **Increase access** (or reduce barriers) to healthcare and behavioral or emergency behavioral healthcare
